Percentage of pupils who have been in local authority care or are subject to SGO	5	4.67% = £11,725
Total PPG received		£18450
Plus carry over from last year		£3000

Barriers to learning

- Social and emotional difficulties, including attachment
- Accessing the mainstream curriculum without adult support
- The ability to make sustained progress without additional support
- Access to funds for extra-curricular activities

Nature of the support

- Supporting off site visits - supporting the costs associated with residential visits and day visits which contribute significantly to learning and wider social experiences.
- Visitors, workshops and activities - supporting the cost associated with instrumental, sporting and after school clubs which help develop friendships and a wider appreciation of the curriculum.
- Targeted intervention support either 1:1 or in small groups.
- Equipment and resources to support learning and engagement in the curriculum.

Outcomes

Data will be updated and shared towards the end of the autumn term, again at the end of the spring term and finally at the end of the summer term. Any interventions will be tracked and progress measured to ensure impact. Pupil progress discussions will take place half termly with teaching staff. The Headteacher takes responsibility for the monitoring of these children's education and progress. Governors also monitor the pupil premium spending and there is a report given to governors at every full governors meeting through the Headteacher's report.
