

Pupil Premium 2018 -2019

Overview

Total pupils on roll	113
Percentage of pupils eligible for Pupil Premium Grant (PPG)	10.6%
Percentage of pupils in receipt of free school meals	4.4% = £6,600
Percentage of pupils who have been in local authority care or are subject to SGO	6.2% = £16,100
Total PPG received	£22,700

Barriers to learning

- Social and emotional difficulties
- Accessing the mainstream curriculum without adult support
- The ability to make sustained progress without additional support
- Access to funds for extra-curricular activities

Nature of the support

- Supporting off site visits - supporting the costs associated with residential visits and day visits which contribute significantly to learning and wider social experiences.
- Visitors, workshops and activities - supporting the cost associated with instrumental, sporting and after school clubs which help develop friendships and a wider appreciation of the curriculum.
- Targeted intervention support either 1:1 or in small groups.
- Equipment and resources to support learning and engagement in the curriculum.

Outcomes

Data will be updated and shared towards the end of the autumn term, again at the end of the spring term and finally at the end of the summer term. Any interventions will be tracked and progress measured to ensure impact. Pupil progress discussions will take place half termly and each child will have their own, individualised pupil premium plan. There is a named person who takes responsibility for the planning and monitoring of these children's education and progress. Governors also monitor the pupil premium spending and there is a report given to governors at every full governors meeting through the Headteacher's report.
