Weds 8th July

End of year service at church 1.30pm
LAST DAY OF TERM!

Mon 24th August

Start of Autumn Term

24th - 28th August

Woodlands PGL trip

TOP SECRET!

We are delighted to share some very special news with you. We have been given the wonderful opportunity to welcome the Archbishop of Canterbury, the Most Reverend Sarah Mullally, to our school for a special Open the Book assembly on Saturday 12th September. This is a great honour for our school community, and we are very excited to be hosting such a significant visit.

Important notice

This visit must remain strictly confidential. At the request of the Church press office, there must be no sharing or discussion of this event on social media. We ask for your full cooperation in respecting this requirement.

Please check your emails for full details of this visit.

Shhh!

SEVERN TRENT WATER VISIT

We had a visit from Severn Trent Water who came to lead an assembly for us all about the water cycle, how water is cleaned and importantly, what you can and can't flush down the toilet! We then spent some time discussing the importance of not being wasteful with water. The children really enjoyed finding out about how to save water. Ask them to share with you.

Year 3 and 4 were then lucky to have an exciting workshop exploring how wasteful people can be with water. They had lots of fun playing with the water and finding out through measuring just how wasteful some things are.

UNITY PRESENTATION EVENING

On Tuesday 16th June, we attended the Unity Presentation Evening in Ashby to celebrate our many successes this year. Unity represents several small schools across the area and gives children the opportunities to participate in many activities which are usually more tailored to large primary schools. We hope to see even more people there next year. Well done to all of our amazing winners this year!

PTA COLOUR RUN

Thank you to our PTA who arranged a fun filled sponsored event for the children. The children started off with some cross country running out in the park for our younger children and then out into the fields for Key Stage 2.

On arrival back to school, the children were sprayed by many enthusiastic parents and doused in coloured powder. The children (and staff) had so much fun and hopefully will have raised a significant amount for school funds. Please send any outstanding sponsor money in ASAP!

WOODLANDS PERFORMANCE

Our talented Year 5 and 6 class put on a wonderful end of year performance of Mystery at Magpie Manor. Despite the extreme heat this week, they did a fabulous job. Well done Woodlands!

YEAR 6 ENTERPRISE PROJECT

After SATS, our Year 6 enjoyed the annual enterprise project. Groups of children had to think of something to sell to our school community. The team which made the most amount of money was Fred, Mason, Joel and Alfie who sold muffins, donuts and flapjacks. Overall, the children made a profit of £70, which will be spent on purchasing some graphic novels for school. Well done Year 6!

WHY RESILIENCE IN CHILDREN MATTERS MORE THAN SUCCESS

Resilience does not mean life is always easy. It means your child learns how to bounce back, keep going, and grow stronger through challenges and setbacks.

WHAT MIGHT IT LOOK LIKE?

Your child may:

- Bounce back after a difficult day
- Keep trying even when something feels hard
- Learn from mistakes instead of fearing them
- Ask for help when they need it
- Believe they can handle challenges

WHAT DOES NOT HELP?

- Protecting them from every struggle
- Doing things for them they can do themselves
- Focusing on mistakes more than effort
- Comparing them with others
- Expecting perfection

WHAT HELPS?

- Encourage effort and progress
- Praise their persistence and determination
- Model a positive mindset
- Let them solve age-appropriate problems
- Offer support, not solutions
- Celebrate small wins

TRY THIS INSTEAD

Instead of:
"You have to be the best."

Instead of:
"Why did you give up?"

Instead of:
"I'll fix this for you."

Try: "Do your best and be proud of it."

Try: "What can you try next time?"

Try: "You've got this."
I'm here if you need me."

Resilience is built
in the small moments.

Every challenge a child
faces today helps them
learn, adapt, and grow
stronger for tomorrow.
